

Commissioner Jane Henney, M.D.
Federal Food and Drug Administration
5600 Fishers Lane, Room 1471
Rockville, MD 20857

Dear Doctor Henney,

1297 '99 SEP -7 P1:46

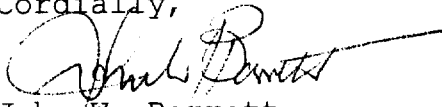

I believe that God has placed in nature all the substances needed to heal every human illness even though we still have much to discover.

My purpose in writing to you is to urge the FDA to quickly approve the following claims which have been substantiated by numerous studies and are widely used throughout the world without any dangerous side effects:

- 1) saw palmetto and the symptoms of BPH,
- 2) folic acid, vitamins B6 and B12 for cardiovascular disease,
- 3) both vitamin E and psyllium husk seeds for those at risk for cardiovascular disease.

I hope the FDA will move quickly on these recommendations. Any delay when the health of our people is at risk would be unconscionable.

Cordially,

John W. Barrett
